attend, you will be charged for the meal as we have
to guarantee the number of meals.**

Ms. Susan Richardson, Kilpatrick Townsend
& Stockton, LLP, Counsel

Dr. Wayne Dickinson, Kemira, Principal
Scientist

Dr. Ching-Hua Huang, Georgia Institute of
Technology, Professor

"A Panel on Water Contamination in Flint, MI"

Biographies: Ms. Susan

Richardson is Counsel in
the Environmental and
Natural Resources Practice
Group of Kilpatrick
Townsend & Stockton, LLP.

Ms. Richardson has
significant experience in

advising clients with regard to the wastewater
and drinking water permitting and enforcement
issues, particularly as applicable to municipal
governments.

Ms. Richardson is listed in The Best Lawyers in
Americas® for Environmental Law. She is also
listed in Georgia Super Lawyers and she is
ranked in Environmental Law by Chambers
USA. She previously served as Chair of Bar of
Georgia's Environmental Law Section. Ms.
Richardson is a 2009 graduate of the Institute
for Georgia Environmental Leadership and
currently serves as the immediate past chair for
IGEL.

MEETING Announcement

Ms. Richardson earned her JD from Tulane University, magna cum laude in 1991 and her BS in Biology from University of Tulsa, cum laude in 1998. While in Law School, she was a member of Order of Coif, Tulane Law Review and Moot Court Board.

After a career in oceanography, **Dr. Wayne Dickinson** returned to school at Montana State University and obtained a Ph.D. in chemistry studying the Electrochemistry of Stainless Steel Colonized by Manganese-Oxidizing Bacteria. For the past 20 years he has been active in water treatment for the mining, petroleum, paper and industrial water industries with a focus on corrosion, mineral scale and biofouling issues. Wayne has published numerous scientific and technical papers and holds several patents in these areas.

Dr. Ching-Hua Huang is a Full Professor at Georgia Institute of Technology in the School of Civil and Environmental Engineering. Dr. Huang received her Ph.D. and M.S. degrees in environmental engineering from Johns Hopkins University, and B.S. degree in chemistry from National Taiwan University.

Dr. Huang has more than 20 years of research and teaching experience, and her expertise areas include environmental chemistry, advanced water/wastewater treatment technology, emerging contaminants, sustainable water reuse, waste remediation and resource recovery. Dr. Huang has published more than 100 peer-reviewed journal papers, book chapters and conference proceeding papers on the topics above and is a frequent invited speaker at many international conferences and universities. Dr. Huang is the 2014 SETAC (Society of Environmental Toxicology and Chemistry) North American Chemist, and has received various honors from organizations such as the American Chemical Society and Gordon Research Conferences for her research with her students.
